

Internships for Undergraduate & Masters Students

ICFO offers the opportunity to undertake a **Final Degree Project**, a **Masters Thesis** or to participate in a **Research Stay** with one of our Research Groups. In this call we offer the following fellowships, which cover funding for up to 6-months. Students may stay for a longer period up to 12-months if agreed with the corresponding host group.

3 x Student Research Fellowships 2 x SPIE@ICFO María Yzuel Fellowship Awards

An activity of the SPIE@ICFO Chair for Diversity in Photonic Sciences to attract, retain and promote talented women

Projects may be undertaken with any Research Group. Research lines include, but are not limited to, theoretical and experimental aspects of:

- Biophysics & Biomedical Optics
- Optical Sensing, Optoelectronics & Photovoltaics
- Nonlinear Optics, Ultrafast Optics & Atto-Physics
- Nanophotonics, Optomechanics & Nanomechanics
- Experimental Quantum Optics & Quantum Information
- Theoretical Nanophotonics, Quantum Optics & Quantum Information
- Condensed Matter Theory & Light-Matter Interactions
- Energy storage, solar fuels and CO2 mitigation
- Thermal photonics and infrared spectroscopy

All candidates will be considered for all available fellowships for which they are eligible.

For further information about the research groups and activities at ICFO, please visit <http://www.icfo.eu/>

For additional questions, please contact us at jobs@icfo.eu.

Program details and applications are available at <http://jobs.icfo.eu>
Deadline for applications: November 21, 2021
